VOLT³EC

A Lexani Tire designed to elevate electric vehicle performance.

YOUR ULTIMATE DESTINATION FOR HIGH-PERFORMANCE TIRES

At Lexani Tires, our mission is to deliver the perfect blend of performance, safety, and style through our exceptional range of high-quality tires. With over two decades of experience in the tire industry, we pride ourselves on our commitment to excellence and unparalleled customer satisfaction.

Our story began in 2001 with a vision to revolutionize the tire market by offering high-performance tires with uncompromising quality and craftsmanship. Today, we have evolved into a global brand that is recognized and trusted by customers across the world for our innovative designs, advanced technology, and passion for perfection.

The Ultimate in EV tire technology

The Lexani **Volt-EC** is a breakthrough in EV tire technology, designed to elevate electric vehicle performance, extend range, and improve passenger comfort. It features an EV-specific performance balance, optimizing weight distribution for enhanced traction and stability.

With ultra-low rolling resistance, it boosts efficiency and range, while its advanced tread patterns offer superior wet weather safety. The tire also reduces noise for a quiet ride, ensuring comfort.

The Volt-EC embodies Lexani's commitment to innovation, merging performance, efficiency, and safety in a tire that sets new standards for the electric vehicle experience.

Vehicle Examples

Model 3

Tesla

Mustang Mach-E

Ford

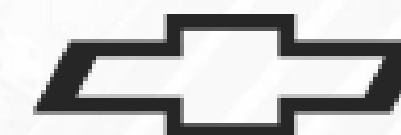

Prius

Toyota

Volt

Chevy

Focus

Quiet & comfortable ride for drivers and passengers.

EV range extension due to ultra low rolling resistance.

Segment and Application

The Volt-EC an Ultra High Performance, All-Season tire for Electric Vehicles*

**The Lexani Volt-EC can be placed on electric, hybrid and internal combustion engine vehicles safely. Design was with electric vehicles in mind.*

Mileage Warranty

40,000 mileage warranty*

For more Information on warranty visit us at <https://lexanitires.com>

Features & Benefits

- EV-exclusive performance balanced design.
- Ultra-low rolling resistance to help *extend electric vehicle range*.
- Excellent *wet weather performance* for traction.
- Quality design ensures a quiet and comfortable ride.
- M+S and E4 Marking
